PUBLIC COMMENT

Theresa Bratcher requested to speak to the council regarding a vendor's request to use electricity at the Farmer's Market. Mr. Baehl explained the electricity on the poles and potential problems. The Council discussed many options. The Town does provide a lot of non-profits the use of the Community Center for free, even during for-profit events. Repairs are needed at the Community Center, and the Town must be able to afford the repairs. The discussion about asking non-profits for a donation when hosting for-profit events was held again. It was decided that Farmer's Market will administer a different price for vendors needing electricity, and the extra funds would be forwarded to the town for electricity costs at the end of the Farmer's Market season.

President Rutledge requested that the agenda be altered due to the late hour of the meeting. This would allow departments present to present and avoid keeping them from their families.

POLICE DEPARTMENT

Marshal Carter emailed the Council the run's report before the scheduled meeting.

Marshal Carter thanked the Council for their continued support of him as an organizer and member of the Annual Marshals Conference. Over 130 officers were in attendance this year, and it was a very successful conference.

Payroll Processing – Easy Time Clock

Mrs. Rankin presented the Council with information regarding Easy Time Clock, a potential tool for streamlining payroll processing. The platform offers several user-friendly features, including off-site approvals, real-time access to PTO balances, and simple tracking for clocking in and out, as well as assigning time to various categories such as on-call hours.

The service is available on a trial basis at a cost of approximately \$15–\$20 per month and can be canceled at any time. Employees can log their hours using either a phone or computer. All field personnel currently have Town-issued phones, making access convenient. Seasonal employees, who may not use the digital system, could continue to submit traditional time cards.

Utility Outstanding Invoice

The Clerk-Treasurer presented the Council with an outstanding invoice from Utility Safety and Design, Inc. (USDI), the Town's gas maintenance and service provider, in the amount of \$750.00 for preliminary work completed on the Farmington Ridge project.

in order to maintain good standing with USDI, it would be in the Town's best interest to proceed with the payment at this time.
